

Coffins

All coffins are built to exacting hand crafted standards. Eco-friendly high gloss, PVC-free laminates and real woods. Also a range of Eco-coffins, willow, banana leaf, bamboo etc. All hand finished in-house.
All coffins are certified and checked by F.F.M.A. (ask for more details).

Looking after a loved one

We believe that you should have access to all the details of your funeral arrangement including where we will look after your loved one. We have invested in our back-office functions over many years and proud to have renewed facilities (2020) for every situation, including bariatric patients. **No one** is ever left at a hospital when we have clearance to collect them ~ even during the current COVID-19 times we had facilities to spare.

Looking after visitors

During these COVID-19 times we can re-assure you that your health and wellbeing is always our priority. Our cleaning regimes have been stepped up and public spaces cleaned between visits. We have also invested in the latest air purification systems React-Air X Commercial Airborne Pathogen Neutralisers for the chapels of rest and mortuary areas. Please ask for more details
